SLIMMING ABDOMINAL BELT

WIRELESS
60
MINUTES / DAY

DOWN **1 SIZE**
IN **1 MONTH**

SLIMMER

WAISTLINE
AND HIPS

FIRMER

BELLY

TONED

SKIN

Acts on imperceptible muscle contraction
to consume energy and refine the abdominal belt.

Results obtained after 4 weeks with 3 one-hour sessions per week.

THE POWER OF LOW-INTENSITY BIOMAGNETIC FIELDS

Activates fat-burning processes in the smooth abdominal muscles for a slimmer, more toned tummy.

HIGH LIGHTS

- Slimmer waist and hips
- Firmer belly
- Toned skin

-3,5 cm*

At the largest waistline angle

-2,5 cm*

At the navel area

-10,3 %*

Abdominal fat

WAIST ~ HIPS

**100%
PAIN-FREE**

There is no perceptible pain or muscle contraction during the session. Only a gentle warmth is felt around the abdomen, associated with the action of the magnetic fields.

**100%
ERGONOMIC**

The wide abdominal belt covers the tummy, waist and hips.

**100%
DISCREET**

The new sand color allows the belt to be worn discreetly, directly to the skin or under a thin T-shirt.

**Clinical study conducted by the Photomedicine Institute of the Teknon Medical Center in Barcelona (Spain) on 20 volunteers who used the belt combined with an anti-cellulite serum for 4 weeks (30 days), 3 times a week.*

I love the technology: -4.5 cm waistline in 1 month

Very practical, not painful and already results in 15 days

Pleasant and easy to wear during my office days.
I feel less tight in my jeans

This belt is the best invention ever! I've just taken the measurements after 1 month, and I'm shocked: -8 cm on the stomach, -6 cm on the hips, -4 cm on the waist. So happy with the results
